---

AMR Patient Portal 2.0 is a cloud-based solution, an Internet Connection is required.

AMR Patient Portal 2.0 uses Direct Protocols per the Direct Trust Network.

AMR Patient Portal 2.0 uses Surescripts.

AMR Patient Portal 2.0 uses Microsoft SQL Server for its database needs.

#### D. Additional Costs:

---

*The AMR Patient Portal 2.0 is an EHR-integrated solution. It is not intended for non-integrated environments. Purchaser must have an EHR into which the solution will integrate, in order for full use of as-certified functionalities and features.*

*The EHR with which AMR Patient Portal 2.0 solution is integrated, and through which the purchaser will purchase, is responsible for disclosing additional costs and limitations associated with that integrated relationship for the integrated offering made available to the purchaser.*

► If not provided for in base Integration Agreement with purchaser's EHR provider and AMR:

- A subscription agreement, fee, license or other one-time and or recurring financial agreement may be required for features involving Surescripts.
- A subscription, fee, license or other one-time and or recurring financial agreement may be required for features involving Direct Messaging.
- If purchaser requires non-standard and or customized server environments other than the standard cloud-based configuration, and or site-specific instances for server-side installations and access, such needs will incur additional hardware, configuration and support costs directly related to those non-standard configuration requirements.
- If purchaser requires non-standard, customized and or proprietary level(s) of Technical-, Clinical-, Specialty-, and or End-User Implementation and or Support such as, but not limited to: operational and or functional methods, practices, branding, marketing and or promotion, technology, third-party integration, documentation, and or in- and or out-of-scope compliance, purchaser is aware that additional costs may be associated.

PUBLIC NOTICE: Important Information For Purchasing Decisions – Costs And Limitations May Apply.

► If not provided for in base Integration Agreement with purchaser's EHR provider and AMR:

If purchaser requires any AMR Patient Portal 2.0 non-standard services, features, functionalities, documentation, technology, training, insurances, certificates, compliances and or personnel not provided for in the base Integration Agreement with the purchaser's EHR provider, additional costs may be incurred by the purchaser to accommodate such non-standard needs or requirements, prior to implementation.

#### E. Limitations and Advisements:

---

- AMR Patient Portal 2.0 utilizes RxNorm and SNOMED codes, as of this certification date.
- AMR Patient Portal 2.0 is a cloud-based solution. An internet connection is required by the purchaser and the user-base.
- AMR Patient Portal 2.0 is an ONC Health IT Module. Purchaser must have an EHR with which the AMR Patient Portal 2.0 is integrated.

#### F. Contacting AMR Patient Portal 2.0 – End-User Support:

---

- End-users of AMR Patient Portal 2.0 may email their support request to the AMR Support Team at: [support@accessmyrecords.com](mailto:support@accessmyrecords.com).
- Providers may contact their EHR's Customer Service or Technical Support in accordance with their contractual contact preferences or SLA Agreement.
